

PRESENTATION
PASSI

PASSI

PASSI is a national company based on the model of the large international corporations, with professionals highly qualified and committed to the result and success of all the solutions offered to our clients. With experience in knowledge transfer through face-to-face courses and specific solutions to support knowledge management.

Experience in knowledge transfer in SAP implementation projects and development of specific solutions, together with flexibility, dynamic methodology and low cost are integral parts of what we can offer you.

We can assist you in planning and designing a long-term training program in order to avoid surprises for your budget. This activity can be perfectly planned and linked to a specific goal, avoiding the surprises that may delay the transfer of knowledge and the return on investment.

We also have a process office structure (BPM Office) and projects (PMO) to support the structuring of the set of procedures for process management and ensure the correct application of the concepts, opening space for the evolution of business process models within of the company, also ensuring the best methodology for project planning, execution and support.

We partner with SAP, which provides solutions with high technological value.
